Mohammad Samin Yasar

Charlottesville,Virginia 22903, USA

• msy9an@virginia.edu, • +1 (434) 422-2530

EDUCATION	**University of Virginia**, Charlottesville, Virginia	Aug 2017 – Present

- Ph.D. in Computer Engineering

	BRAC University, Dhaka, Bangladesh	Jan 2012 – Apr 2015

- B.S. in Electrical and Electronic Engineering
  - Major: Electronics, Computer Group
  - Minor: Computer Science
  - Cumulative GPA: 3.90 / 4.00

RESEARCH EXPERIENCE	**Dependable Systems and Analytics**, University of Virginia	Aug 2017 – Dec 2019

- Supervisor: Prof. Homa Alemzadeh

Selected Projects

- Real-time detection of adverse events in robotic surgery (*under submission*)
  - Detection of operational context in common surgical tasks, using supervised learning approaches
  - Simulation of realistic robot failure modes using software fault injections, for training and evaluation
  - Development of a safety monitoring system that can detect unsafe events, given the current operational context
- Automated detection of objects in surgical workspace using Transfer Learning (*under submission*)
  - Fine-tuning the final layers of pre-trained MRCNN, using ResNet 101 as the backbone
  - Generating a dataset for the Pick and Place Task
- Context-aware monitoring in robotic surgery [2]
  - Unsupervised segmentation of common surgical tasks
  - Learning constraint-based safety properties of surgical sub-tasks, based on kinematics features
  - Detection and localization of adverse events using vision based cues

WORK EXPERIENCE	**Graduate Teaching Assistant**, University of Virginia	Jan 2019 – May 2019

- Course: Dependable Computing Systems
  - Conducting tutorial sessions, grading assignments and exams

	Assistant Manager, MGH Group, Bangladesh	Sep 2015 – Aug 2017

- Department: Strategic Planning
  - Analyzing and forecasting market behavior for strategic investments

	Undergraduate Teaching Assistant, BRAC University	May 2013 – Aug 2015

- Course: Electromagnetic Waves and Signal
  - Conducting tutorial sessions, grading assignments and exams

SKILLS & EXPERTISE	**Machine Learning/Deep Learning** ■ Tensorflow ■ PyTorch ■ Scikit learn	**Computer Skills** ■ Programming Languages: Python, Java, C, C++, VHDL ■ Code Instrumentation: LLVM, Pin ■ Others: UNIX/Linux, BASH, LaTeX
	Robotics ■ ROS ■ Gazebo	**Computer Vision/Image Processing** ■ OpenCV ■ Matlab

---

SELECTED PROJECTS

Detection and Tracking of subject in a video based on a given template
- Extracted HOG features of the template from the first frame of the video
- Trained a discriminative classifier (linear SVM) to distinguish between the subject and background based on HOG features, using a sliding window approach
- Code availability: https://github.com/MohammadYasar/ObjectTracking

CNN-based Product Price Prediction from Images
- Implemented a web crawler to create a dataset comprising of product images and their meta data
- Developed a product price predictor, comprising of a pre-trained model that extracts visual features for each product, followed by a fully-connected regressor to predict the product price
- Code availability: https://gist.github.com/MohammadYasar/7f8bebe7b35781e1edf58080e1bae823

Intrusion Detection System for tele-operated surgery
- Developed an attack model for simulating intrusion into the robot network
- Distinguished between normal tele-operation and abnormal behavior by leveraging previously recorded data patterns
- Code availability: https://github.com/MohammadYasar/SWSecurity/

Generic interface for applying machine learning tools to detect fraudulent transactions
- Designed the pipeline for data preprocessing and feature selection for an unbalanced dataset
- Trained and validated different classifiers (kNN, SVM, XGBoost, Random Forest) using double cross validation
- Code availability: https://github.com/MohammadYasar/MachineLearningGenericInterface

---

AWARDS & SCHOLARSHIPS

ISMR and SSMR Travel Grant	Apr 2019
Second place, ECE Research Poster competition, University of Virginia Annual Research Poster Session for Graduate Students in ECE	Sep 2018
Vice Chancellor's/Dean's List, BRAC University For attaining a semester GPA of at least 3.7 (Dean's List) or 3.9 (Vice Chancellor's List)	2012 – 2015
Merit Based Scholarship, BRAC University Awarded on the basis of outstanding performance in GCE O and A Levels	Jan 2012– Apr 2015

GRADUATE COURSES

Deep Learning for Visual Recognition	Algorithms
Statistical Learning and Graph Models	Dependable Computing
Probability and Stochastic Processes	Computer Architecture and Design
Digital Image Processing	Advanced Embedded Systems
Software Security	Machine Learning

SELECTED TALKS

- **ISMR 2019** - Context-aware monitoring in Robotic Surgery
- **IDHD 2019** - Synthesizing realistic errors on the Raven II

PROFESSIONAL SERVICES

Reviewer

■ TENCON	Jul 2016
■ ISMR	Jan 2020

External Reviewer

■ DSN	Dec 2017, Dec 2018
■ ICCPS	Nov 2018, Nov 2019,

MENTORING EXPERIENCE

Mentor, University of Virginia

■ Harshneet Bhatia - Undergraduate in CS	Jan 2019 - Dec 2019
■ Gabriel Mallari - Undergraduate in ECE	Aug 2019 - Dec 2019
■ Parisa Roohafzaii - Undergraduate in CS	Sep 2018 - Dec 2018
Mentor, Young Digital Entrepreneur Camp, Bangladesh	Nov 2016
